Notice of Partial Corrections to the Notice of the 16th Annual General Meeting of Shareholders

RAKSUL INC. (the “Company”) hereby informs you that there were items requiring partial correction in the "Notice of the 16th Annual General Meeting of Shareholders," which was posted on our website and mailed on October 1, 2025. We sincerely apologize for this matter.

We hereby notify you of the following corrections and additions as outlined below. This posting on our website serves as the official correction.

1. Corrected Section

Page 7 of the Notice of the 16th Annual General Meeting of Shareholders

The notes section under "Proposal 1: Election of Five (5) Directors (excluding Directors who are Audit & Supervisory Committee Members)"

2. Details of the Correction

The following content is to be added (added as note 10):

10. At ACCESS CO., LTD., where Mr. Yoshihiko Miyauchi serves as an Outside Director, an incident of misconduct, including improper revenue recognition for certain transactions at its U.S. subsidiary, was discovered in June 2025 through a report by a Special Investigation Committee established by the company. Although Mr. Miyauchi was not aware of this matter until the misconduct was discovered, as an Outside Director of the company, he has routinely made recommendations to the management at the Board of Directors meetings regarding the importance of appropriate accounting treatment and internal controls. After the suspicion of improper accounting was identified, he has been appropriately fulfilling his responsibilities by, among other actions, supporting the establishment of the Special Investigation Committee, cooperating with its investigation, earnestly accepting the investigation results at the Board of Directors meetings, and strongly demanding the thorough implementation of recurrence prevention measures.
