# **GRA-GNT** Instructions

## Included Items

#### Antenna Mount

The Antenna Mount Kit features SO-239 connectors on both ends, with a 1/4" connector at the base.

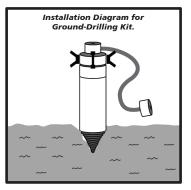

This antenna mount kit can be connected to both antenna mast kits included in this product set.

### Large Antenna Mast Kit

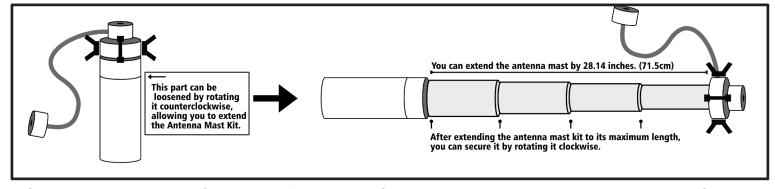

The base of the Large Antenna Mast Kit has a 1/4" hole for connecting the Ground-Drilling Kit or Clamp Kit.

Secure the antenna mount in the ground with the 'Ground-Drilling Kit,' or attach it to a cylindrical object using the 'Clamp Kit.

The Large Antenna Mast Kit features an adjustable length, allowing you to extend or retract your antenna for optimal height during installation and convenient storage when not in use.

#### Small Antenna Mast Kit

The Small Antenna Mast Kit conveniently stores the tripod kit within the mast body.

Tripod Mode: Simply lock the tripod for placement on a flat surface.

Tripod with Ground Anchor Mode: Ideal for inserting into the ground, providing additional stability with the extra legs.

Single Ground Anchor Mode: Directly insert into the ground for use.
