Author: Kathleen S Verderber  
ISBN: 9781305502819

The role of ethics in communication is integrated throughout the text, as is the role of technology and social media. The chapters on listening Ch. About the Author Kathleen S. Verderber has consulted with various civic, professional, and business organizations. She has published numerous articles in several journals and has presented papers at communication and management conferences. Rudolph F. Verderber is a Distinguished Teaching Professor of Communication Emeritus at the University of Cincinnati and former National Speaker's Association Professor of the Year -- as well as one of the all-time bestselling communication studies authors. The strength of his basic texts lies in his ability to explain and exemplify concepts, theories and skills to introductory level students. Deanna D. Sellnow, Ph. Her research focuses on the rhetoric of popular culture, particularly music as communication, and instructional communication as it occurs in conventional and nonconventional classrooms, as well as in

risk and crisis contexts.

Published in regional, national and international journals, Dr. Date of Birth: Date of Death: November 26, Consider This boxes provide interesting and topical applications of the important issues discussed in various chapters, such as collaboration, technology, and ethics. Notes callouts clarify up-to-the-minute business and technological advances and underscore important advice. Marginal notes summarize larger chunks of information to reinforce key chapter concepts. Checklists promote careful editing, revision, and collaboration. Students polish their writing by reviewing key criteria for the document and by referring to cross-referenced pages in the text for more information on each point. Superior assignability and tracking tools help educators make sure students are completing their reading and understanding core concepts The assignment calendar allows educators to indicate precisely which readings must be completed on which dates.

This clear, detailed schedule helps students stay on task by eliminating any ambiguity as to which material will be covered during each class. When they understand exactly what is expected of them, students are better motivated to keep up. The performance dashboard empowers educators to monitor class assignment completion as well as individual student achievement. Actionable information, such as points earned on quizzes and tests and time on task, helps educators intersect with their students in meaningful ways. For example, the trending column reveals whether students' grades are improving or declining, helping educators to identify students who might need help to stay on track. With single sign-on, students can be ready to access an interactive blend of authors' narrative, media, and assessment on their first day. Flexible, on-demand grade synchronization capabilities allow educators to control exactly which grades should be transferred to their LMS Gradebook.

But if students need a loose-leaf print reference to complement their Revel experience, they can purchase one from within their Revel course at any time. New to This Edition. The latest coverage of digital communication and social media, such as: using JAWS to make Web pages accessible for visually impaired users the increasingly common use of video interviews the use of PDF files for most online instructional material using collaborative writing apps and spaces such as Google Drive.

Emphasis on the impact of social media on technical communication , with social media considerations incorporated into nearly every chapter. New discussions on the challenges of assessing credible information when using online sources. Includes discussions in Chapters 7, 8, and 9 on research about confirmation bias and ways that online information tends to reinforce what people already believe or want to believe. Streamlined topical coverage within chapters— While overall structure and chapter sequence is maintained, the authors have combined related sections and reorganized topics extensively within chapters to improve accessibility and present fewer major sections for students to navigate. All major sections are tied to the Learning Objectives that appear at the beginning of each chapter.

Extensively revised Chapter 12, Designing Visual Information —Stronger emphasis on planning visuals by placing the Planning Sheet for Preparing Visuals early in the chapter. The chapter also includes a new section on understanding and creating infographics , as well as a new section on presenting visuals. Thoroughly revised Chapter 23, Oral Presentations and Video Conferencing— Includes a new section on when and how to use handouts during presentations; expanded discussion of the cautions of relying too much on presentation apps; more emphasis on considering the needs of off-site audiences when planning and preparing oral presentations; and updated figures throughout the chapter, Fully revised end-of-chapter Projects.

A soft-bound printed text you can rent, fulfilled by Chegg. At the end of the rental period, you can choose to keep the text for a flat fee. Complete coverage for any course in technical communication, business communication, or professional writing.

Revel Technical Communication, 15th Edition guides students to write persuasively, effectively, and with perspective on technological innovations and global communications. Lannon and Gurak incorporate the interpersonal, logical, ethical, and cultural demands of different forms of workplace communications, and encourage the development of skills students will need to navigate these considerations. Building on research and writing skills, the authors prepare students for technical writing in any field. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course.
